

REVITALIZATION UPDATE

The Revitalization Committee would like to thank everyone who attended the various meetings over the past couple weeks. The enthusiasm regarding the Ellwood City Community Plaza and Farmer's Market has been well received and the ball is rolling forward.

We need to raise money to fund this project and community citizens have responded to these efforts. Several businesses have come forward and have said that they will conduct internal collections for raising money. Soon you will be seeing cans in area businesses to help this cause.

The committee has had meetings with government officials in an attempt to get funding. The picture with this announcement is the President and Vice President of Revitalization, Lenore Bazzichi and Daniel Franus, discussing the overall plans with Pennsylvania Senator Elder Vogel. Discussions have also been made with U.S. Senator Arlen Specter (Mary Styn, Representative), Pa. Representative Jaret Gibbons and U.S. Congressman Jason Altmire. Show your support in Ellwood City Revitalization by letting the government officials know you are behind this project by sending a little note of Ellwood City spirit.
